Education

Addis Ababa University — Addis Ababa, Ethiopia
Bachelor of Science in Software Engineering — *Jun 2021 – Jun 2025*

Africa To Silicon Valley — Addis Ababa, Ethiopia
Coding Bootcamp — *Feb 2023 – Nov 2023*

Experience

Backend Developer — April 2024 – May 2025
Aladia — *Brecia, Italy*

- Developed a key product feature from scratch, translating project requirements from stakeholders into a robust solution that improved system functionality for over 1000 users.
- Integrated **Google Pub/Sub** to establish queue-based messaging between 8+ **microservices**, optimizing message delivery and reducing system downtime by 20%.
- Led a team of 3 junior developers, delegating tasks, providing mentorship, and conducting detailed code reviews to maintain high-quality standards.
- **Google Cloud, Redis, Google Pub/Sub, NestJs, Microservices, ApiDog, Github actions, Typescript and MongoDB.**

Full-Stack Development — Feb 2024 – Jun 2024
Addis Ababa University — *Addis Ababa, Ethiopia*

- Implemented a robust monitoring system using **Grafana** and **Prometheus**, visualizing system usage and error logs. This reduced the time to identify the issue by 40% and enabled proactive troubleshooting without relying on user reports.
- Built a **real-time** notification service that delivered critical updates to platform users, enhancing user engagement and reducing response time by 30%.
- **C#, .NET, Typescript, Angular, RXJS, PostgreSQL, Material UI, Docker, Prometheus, Grafana and SignalR.**

AI Engineer / Machine Learning Engineer — Jun 2025 – Present
Turing — *Remote*

- Designed and developed AI-powered applications using **Large Language Models (LLMs)**, **Retrieval-Augmented Generation (RAG)**, and agentic AI workflows.
- Evaluated AI-agent and code-generation outputs, identified technical failure patterns, and provided structured feedback to improve accuracy and reliability.
- **Python, FastAPI, LLMs, RAG, AI Agents, Machine Learning, REST APIs, Git**

Projects

XTour | *Flutter, NestJS* — June 2023

- Developed a mobile app where users share their tour experiences.
- Maintained codebase with GitHub and resolved merge conflicts.

Temene | *Angular, NestJS* — December 2022

- Built a platform enabling Ethiopian students and teachers to learn and teach in local languages, monetizing content unlike YouTube.
- Collaborated in a team of 10, resolving merge errors and ensuring smooth frontend-backend integration within 24 hours.

Technical Skills

Languages: Python, Java, JavaScript, TypeScript, SQL (Postgres, MySQL), HTML/CSS
Frameworks: React, Node.js, Express.js, Nest.js, Next.js, Angular, Flutter
AI & Automation: LangGraph, n8n, LangChain, LLM Chatbot Development, RAG Pipelines, Prompt Engineering, OpenAI API
Developer Tools: Git, GitHub, Docker, Kubernetes, Redis, Kafka, Spark, Cassandra, Airflow, Google Cloud Platform, VS Code, Webstorm, Prometheus, Grafana
